Irish Heritage Camp with Ms. Karen

This week will be filled with all things Irish! Campers will experience Irish music and practice a jig or two. They will learn about the gift of the gab and say a few Irish words. What would an Irish week be without hearing a great story- after all, the Irish are famous for their storytelling! Little ones will also be kept busy with art activities and crafts. Of course, a Leprechaun visit will be on the agenda, and let's hope we find a pot of gold at the end of the rainbow! So much to enjoy and all with an Irish twist. Open to 12 campers ages 3-5. Cost \$135

What do a caterpillar and a seahorse have in common? Both are characters in books by award winning children's author and illustrator Eric Carle. Each day the preschool classroom will come alive as we focus on a different book. Children will use these and other familiar storybook characters to help reinforce pre-emergent reading skills through songs, games, creative play, and sensory activities. Don't worry, you can pack light for this trip! The fun and excitement of travel is yours as campers will "visit" five countries in five days during their around-the-world journey. No passport, required! The landmarks, music, language, customs, and history of each country will be explored. With the recipes made in camp, campers will create their own personal cookbook to bring home. Your child will become confident in the kitchen, make new friends and of course, learn important cooking skills during our week together. Open to 15 campers ages 4-7 Cost \$160

Weather Watchers with Ms. Lisa

Does your child enjoy getting messy? Is he or she curious as to how things in the world around us work and why? Join us as we investigate different weather phenomena like tornadoes, wind, snow and the water cycle. Using experiments and lots of hands-on activities, we will put on our scientific thinking caps and answer questions like; Where do puddles go? What makes a rainbow? Open to 12 campers ages 4-5. Cost \$160

August 13-August 17 9:00 – 1:00pm

To Infinity and Beyond with Ms. Lisa

Blast off with us as we travel through space to the galaxy beyond. Children will explore the solar system and become more familiar with the planets and the sun, moon and stars.
