

# OUTSIDE THE LINES

## Process Art with Miss Julie

Process art is child-directed, choice-driven, and celebrates the experience of discovery! The final product is always unique and often fantastic while the focus is on the creative process.

As a guide and facilitator I provide opportunities for children to

- think creatively, independently, and imaginatively.

- explore the physical limitations and possibilities of materials.

- ask questions and experiment.

- embrace mistakes as part of the learning process.

- practice fine and gross motor skills, colors, shapes, team work, problem solving, hand-eye coordination, and MUCH more!
