LIFE SKILLS THROUGH THE MEANS OF SPORT

Using sport as the means we provide children with a sound base from which to develop every aspect of their lives.

WHAT IS PLAYBALL? Playball is not just another ball program. It is a highly specialized program, devised and continually updated by sports experts, occupational therapists and educational specialists. By giving children competence in sports, we help them develop skills that are not associated with sports at all.

HOW DOES IT HELP CHILDREN? We use the medium of sports, not only to improve gross motor development, increase concentration skills, build low muscle tone, teach children to be competent in hand-eye/foot-eye coordination and improve balance; but sport is also used to teach basic, yet essential life skills. At Playball your children will learn persistence, courage, cooperation, respect, positive relationships, self-worth, communication, responsibility, and countless other attributes. We address the needs of the whole child – dealing with the emotional, social, cognitive and physical.
