Kids Yoga

KIDS GET THEIR OWN YOGA MAT!

It's hard to be a child today! Children deal with many distractions, temptations, overstimulation, and peer pressure. Research shows that teaching yoga to children helps *decrease stress, attention deficit issues, depression, anxiety, and hostility in children, while benefiting their health, well-being, social relations, and academic performance.*

Through playful laughter & a sense of adventure children can learn basic flexibility, coordination, body awareness & confidence. If they are feeling anxious about talking in front of the class or having trouble focusing on their homework, children will unconsciously call upon the techniques taught to them in Kids Yoga. The class incorporates the use of yoga poses, children's literature, music, art, and games.
